The adoption of special measures in favour of German aimed at promoting equality between the users of German and the rest of the population or which take due account of their specific conditions is not considered to be an act of discrimination against the users of more widely-used languages.
- 3 Denmark undertakes to promote, by appropriate measures, mutual understanding between all the linguistic groups of the country and in particular the inclusion of respect, understanding and tolerance in relation to German among the objectives of education and training provided within the country and encouragement of the mass media to pursue the same objective.
- 4 In determining its policy with regard to German, Denmark shall take into consideration the needs and wishes expressed by the groups which use German. It is encouraged to establish bodies, if necessary, for the purpose of advising the authorities on all matters pertaining to German.
